

Why Choose NEI To Protect Your Brand Integrity?

Natural Enrichment Industries, LLC (NEI) wants to be your Tricalcium Phosphate (TCP) supplier! **NEI** understands the many pressures Food & Beverage manufacturers face from consumers, regulation and of course, the competition. You need to maintain consumer confidence, a sustainable food supply chain and food defense. **How can NEI help you protect your brand integrity?**

- 1) **With clean and safe 100% American made ingredients.** **NEI** products are traceable to domestic sources and are made in American SQF Certified Facilities. You are invited to come see our plants and meet our people in Herrin, IL.

- 2) **With quality ingredients.** **NEI** has been manufacturing TCP since 2001 providing the highest quality. Our TCP is an inorganic compound, not Talc and is not Silicon Dioxide. **NEI** has never had a recall. Our Value adds are quick delivery and a short supply chain.

- 3) **With Innovation.** Our R & D Team is ready to help meet your challenges with product customization and ANSWERS. **μICROFLO** a flow agent is proving to reduce processing costs while serving as a calcium fortifier.

- 4) **With Customer Service.** Call **NEI** and talk with a real person! 618-942-2112 or find us online.
