			Held on 100 40-70%

General Characteristics

PCHA:
Precipitated Calcium Hydroxyapatite

Appearance:
Odorless, Tasteless, White Powder

Solubility:
Alcohol – Insoluble
Water – Almost Insoluble

Approximate Formula:
Ca₅(PO₄)₃(OH)

Molecular Weight:
502 amu

Certifications:
Kosher & Halal

Tricalcium Phosphate:
The generic name for precipitated Calcium Hydroxyapatite

Specifications:
Food Chemical Codex VI

Membership:
NEI is a member of the American Institute of Baking. AIB sets the standards and evaluation systems for food safety.
