

# PET OWNERS DEMAND THE BEST FOR THEIR PETS

NEI Ingredients Help Meet and Exceed Their Demands

## Delight Pet Food Buyers and Save Money With TCP From NEI

*TCP is a single ingredient to replace flow agents, release agents and calcium/phosphorus fortifiers saving you production time and money!*

- TriCalcium Phosphate is readily absorbed as a calcium supplement
- NEI's Products are Food Grade made in SQF Certified Plants in the USA
- TCP works better to build and maintain bone and tooth health
- Particle sizes add texture to kibbles for cleaner teeth
- Tribasic's pH levels support digestive tract balance
- NEI's R&D team is here to customize for you
- Scalable capacity to meet your needs
- Grain free and Non GMO as always
